### CONGRATULATIONS HERB HERMANN of NEWARK!

We read in the very excellent Newark news-letter, THE DRUM, that HERB has been promoted to Assistant to the General Sales Manager of Specialties. He will be stationed at the New York office. JOE MCHUGH will assume HERMANN'S desk at Newark.

CONGRATULATIONS YOU TWO from TERRE HAUTE.

## AETNA HOSPITALIZATION CORNER

We have received a ruling on Dental Surgery from Aetna office at Indianapolis which will be of interest to many of you. It reads:

"Under the Surgery Schedule of your Group Policy the only surgery benefits payable under the Dental Surgery Portion is as follows .

We will pay for the removal of sequestra (alveolar processes excepted). We also allow for the surgical treatment and cutting for pyorrhea. We pay for removal of impacted unerupted teeth and also the removal of fractured teeth. Alveolectomy is payable with one restriction and that is there would be no surgical allowance if done immediately following teeth extraction."

For those of you who are stranded in the Indian ocean without water wings and dictionary, the word "AL-VE'-O-LAR" means "Pertaining to the part of the jaws where the sockets for the teeth are situated; as alveolar pyorrhea."

And if you wished that we had explained "sequestra"- we thought of that one too!

"Sequestrum (plural sequestra) A portion of dead tissue, esp. bone, which becomes separated from the sound portion."

These definitions are just a part of the service to you by Dear Old Time Office who knocks themselves out to keep you informed.

**IMPORTANT:** If you are wondering about your claim; why you don't get your checks, etc., why don't you call Time Office, ext. 224 and ask about it. You might be able to help us extract the claim forms from your overworked doctor, or you might help us with additional information. NEVER HESITATE TO CALL 224 AND ASK US. ( We might not know the answer, but we'll get one. )

While in this connection - if you have had dental surgery in the last year (which we did not know could be taken care of by Aetna,) why don't you come in and talk it over. We MIGHT collect some dough for U.

**ANOTHER REMINDER:** Should any member of your family have an accident where Xrays might be indicated, it is smart to take the injured one to the hospital. On accidents Aetna will pay for incidental expenses even if you spend only 15 minutes in the hospital. It is not necessary to occupy a room to collect on charges resulting from a non-occupational accident.

**PLEASE REPORT ALL HOSPITALIZATION CLAIMS PROMPTLY TO TIME OFFICE. IT'S ALL RIGHT TO TELL YOUR BOSS ABOUT IT, BUT TELL US TOO. WE'RE THE ONE WHO FILES YOUR CLAIM. GOOD OLE TIME OFFICE!**

**DRIVE CAREFULLY. DON'T INSIST ON YOUR RITE3....** There are two sides to every question as long as we are not interested in it

"I finally got a permanent station. I am at Ingrandes, France, only three hours ride from gay Páree. Paris is just as gay as most people think and a lot higher

in prices also. A coke costs around 30 cents. A Hershey candy bar costs about 57 cents. The French try to give the GIs a rough time and most of the boys don't like the French as well as the Germans. The Germans are wonderful people and they like the Americans a lot. Some of the most beautiful country in the world is in Germany. The ship I was on docked at Bremerhaven. I went from there to Zweibrücken by train. Zweibrücken is on the French border and in the heart of the Siegfried Line of the last World War. You can still see the giant cement pillboxes in the side of the mountains. Ingrandes is so small you can't find it on any map. It is around 75 miles south of Tours and 180 miles southwest of Paris. We sleep in little shacks which are just a little better than tents. France has several scenic spots to visit and I hope to get a chance to see some of them....The only American troops in France are special service troops and all the camps are temporary. ...."

"Received the Spirit the other day and I was sure glad to hear from the plant. I am still doing my duty as a mechanic over here, although I am supposed to be a tank mechanic I've been working mostly on jeeps. The work is interesting and most of all I like to tinker around with something like that. Our Company right now is on border patrol. Out of every eighteen weeks of border patrol, our Company pulls six weeks of it. It is not a bad deal at all, but I'd rather be back at CSC punching the ole time clock....Keep the Spirits coming....."

Pvt. PAUL E. COX US 55384444, Service Company, 8th Inf. Reg., APO 39, % PM, NEW YORK

"I thought I would write a few lines as this is Sunday afternoon and there isn't much doing. I hope everything is going along fine at the plant. Sorry to hear about BOB MORRIS. The weather here is fairly nice now. We leave for the field in the morning and will be gone for three weeks. I sure wish I were back at CSC. I am over the halfway mark now. By the way, I saw in the Spirit that you haven't gotten CHUCK WALDEN'S address. ....Here it is at the bottom of the letter. I see him quite often. He is in the same Kaserne with me. So far, I have been doing my best to pass the Spirit on to him when I have read it. I am working in the Regimental Mail Room. We break down the mail for the battalions and they in turn break it down for the companies. I'm in the personnel section so therefore I get quite a few breaks. I keep watching for some Terre Haute men to come into the regiment, but thus far I haven't seen any...."

# A SPIRIT MESSAGE

## OPEN LETTER TO SPIRIT EDITOR

"I am a Spirit who used to be known as JOE BLOW. That is when I was on earth and worked at CSC. I thought the gang might like to hear from me. I have plenty of time to write as I only shovel coal a couple of hours a day. The reason I have such short hours is there are so many to do the work. Up on earth that would be called a depression. Down here it is an ideal situation.

"Do you remember how I became a spirit? You probably do, but don't know some of the details. I will tell you as it might help some of the fellows who don't quite understand all the Safety Rules.

"I remember that last day quite well. I was working in a part of the plant that had a lot of flammable liquids. When I changed clothes I put one little Strike-Anywhere match in the watch pocket of my work pants. I figured I'd get a chance to slip out and smoke sometime during the morning. I knew this kind of match wasn't allowed in the plant but I didn't think one little match would do any harm. Besides I didn't have any safety matches.

"Well, I went on in to work with that one little match. I opened up a valve to pump some flammable liquids. When I bent over to open the valve the one little match worked out of my pocket and fell on the concrete floor. I didn't notice the match fall out of my pocket. About an hour later I came back to shut off the valve and pump. The pump had leaked a little puddle of the flammable liquid on the floor. This puddle came within a few inches of where my one little match lay. As I walked around the pump I stepped over the puddle. I didn't want to get my feet wet. I stepped right on that one little match. The match ignited and you know the rest.

"So fellows don't bring even one little Strike-Anywhere match into the plant.

### JOE BLOW'S SPIRIT

PS "I hope they rebuilt the plant and all those fellows that were out of work, because of the fire, got back to work. J.B.S. "

## QUALITY CONTROL - Bio & Petro - AND DEVELOPMENT

Welcome to PAULINE CHERRY here to help with petro chemical quality control. ACE HUTTS is no longer interested in Mr. M.T. Graves. (The number left him must have been Roselawn cemetery.).... The back office has had new floor plans. The old floor had large chuck holes. The most popular theory about the holes is that desks and chairs sunk into the floor when it was softened by the 1939 fire in Derivatives... BOB FINCH is a humorist. Sorry we can't repeat any of his witticisms since we were laughing so hard at the time that a memory lapse occurred.... FRANK MACARTOR has some candy bars that were made in Italy.... RUTH TRUEBLOOD has been working at the control lab and east plant lately. Otherwise there are no new cars, no vacations, everybody healthy, and nobody recently married. News is getting a little scarce since people are finding out who's writing this section.

### FARM, HOME AND TRAFFIC SAFETY

by EARL DRAKE

According to accident records more than twice as many workers are killed in off-the-job accidents than are killed on the job in our industries.

Three out of five fatalities occurring off the job are the result of traffic accidents.

Any normal person has the ability to be a good driver, yet two-thirds of the drivers involved in fatal traffic accidents are violating good driving principles at the time of the accidents.

Here are a few of the practices which make safe drivers:

1. He drives in the proper lane and stays there.
2. He does not pass on hills or curves.
3. He does not pass at street or road intersections.
4. He allows ample clearance when passing other vehicles.
5. He gives proper signals for turns or stops.
6. He yields the right of way to other drivers or pedestrians.
7. He dims his headlights when meeting or following vehicles.
8. He respects and obeys traffic laws, signs, signals and road markings.
9. He adjusts his driving speed to road, traffic and weather conditions.
10. He does not drive when sick, fatigued or under the influence of intoxicating liquor.

GOOD DRIVING MAY ADD YEARS TO YOUR LIFE AND TO THAT OF OTHER PEOPLE.....

REMEMBER: IT IS MUCH BETTER TO GIVE THE OTHER FELLOW A BREAK INSTEAD OF A FRACTURE.  
(Swiped from THE DRUM (Newark))

FOR MEN ONLY: If it is true, most men's heads are just like doorknobs: most any woman can turn them. (The Drum)

# CHUCK WAGON . . .

One phase of the plant picnic, not often publicized is the CHUCK WAGON. This food-laden vehicle arrives at the main and south plants at supper time to feed the fellows who keep the plant running on picnic day.

In charge of the Chuck Wagon is veteran, "Hank" Bush whose stentorian "COME AND GET IT" announces the arrival of the CHOW. His assistants for the 1954 trek included Dan Budd, Herman Parsons, Martha I. Swanson, Noll Sanders and Al Bolin.

Al Bolin, by the way, is a reporter with the TERRE HAUTE STAR. He wanted to know first hand what made the CSC picnic tick. He was enthusiastically accepted and placed in full charge of Baked Beans and Cole Slaw. To his everlasting credit he stuck with the hot job until the last man was fed.

The truck was ably chauffeured by "Hank" Modesitt.

### BEN STRAUSS

Retired April 1, 1955, to his former home town, St. Louis, Mo. He came with Solvents in 1933 when Rossville Alcohol Co. was acquired. Bob Tapy makes presentation of a watch chain with a Masonic emblem (to go on the 20-year watch he got in 1941) and a lounging robe from fellow workers. Ben had been associated with the alcohol business more than forty years. He now plans on doing a lot of rooting for the St. Louis Cardinals this Summer.

## GEORGE BRUNER

Stopped punching the time clock after March 15, 1955, and is going to listen to radio, a retirement present from fellow workers. (Presentation being made by Jim Bruner, George's son.) George came to Solvents Feb. 21, 1924, and during the all 31 years he worked shifts in the power house.

## ALBERT PINE

March 1, 1955, was "Buck's" retirement date. "Buck" started with C. S. C. 8-5-22 and kept the place expertly painted. He was presented a bench saw, cigars and other well wishes from fellow employees. (John Clements making presentation.)

#### MARTHA SWANSON RESIGNS AS SPIRIT EDITOR

Martha Swanson who for quite a few years did such a swell job as editor of the SPIRIT has resigned. Needless to say, the publishers have reluctantly accepted.

The ex-editor has now set up shop as secretary to Clyde Ellis, a job which will keep her too busy to get out the Spirit.

So-----we have set up a board of editors to take over. Just to give you some idea of the job Martha was doing we figure it will take four of us.

Thanks again, Martha, for a fine job well done.

#### C.S.C. DINNER PARTY - TERRE HAUTE HOUSE

We wonder if Charlie Albright will ask for a rebate on his hunting license.

Calvin "Buck" Graham certainly married a fine cake baker. Wonder if it would be asking to much for her to send larger pieces in Buck's lunch?

Stella Wright; "Why have they put statues on top of that building at 6th and Main?" Thelma Kelly; "Those aren't statues, they're W.P.A. bricklayers".

Dan Fenimore knocked over 2 pins in 2 frames for a rousing total of 87 pins for one game.

## F I S H E R M A N ' S     C O V E - by John "Southern Bait" Jackson

Get out your tackle box, untangle your line, sharpen your hooks, and above all get on good terms with your wife, for the time for all good fishermen to start testing their skill is at hand. Speaking of testing your skill, your Athletic Association is sponsoring a Fishing Derby this year. Prizes are to be awarded to those persons who catch and register the largest black bass, small mouth bass, bluegill, redear sunfish or crappie. Persons catching fish which fall into certain weight classes will have their picture taken with the fish. The picture will appear in the "Spirit" and they will receive a copy of the picture if they register their catch. The contest starts today and ends December 1, 1955--so when you catch a bragging fish or as "Jim" Roman says a "mule fish", register it in the Derby for who knows, you may be the winner!

Shannon "Private Pond" White, Smokey Joe "About This Long" Roman, and Kenny "I Know a Pit" Corthum volunteered to serve on the Derby Committee. Off the record--we believe that they are afraid that if they were eligible for the prizes, the Derby may interfere with some of their fish stories.

HEAR TELL-- Earl Barnes and Johnnie Riggs have been practicing for the Derby by catching some good strings of bass. We can let you in on a secret, both Johnnie and Earl have been catching most of their fish just a little-----south of Youngstown.

We are going to try to keep this little column going during the fishing season to give you the latest weights in the Derby and fishin' news as gathered from here and yon. Any news item on fishing tips you may have which you think interesting, please pass it on to us so we can let the other fellows in on the latest. We believe that with your cooperation we can make the Derby and column mighty interesting.

As they do in most advertising today, we repeat--if you catch a good fish or string of fish, register it in the Derby for you never can tell---

See you Saturday just a little south of Youngstown.

ED NOTE - "We gave John his title. Also since he is so modest we'll tell you that the Fishing Derby was his idea".

### FISHING DERBY RULES AND REGULATIONS

1. The contest shall be open to all C.S.C. employees of the Terre Haute Plant.
2. The contest shall include the following species of game fish:
  - a. Black bass
  - b. Small mouth bass
  - c. Bluegill or redear sunfish

# REPORTING ON THE DINNER DANCE

OVER 500 ATTEND COMMERCIAL SOLVENTS  
20-YEAR CLUB DINNER; 37 HONORED

Five hundred persons attended the Commercial Solvents Corporation's fourteenth annual 20-Year Club dinner honoring 37 men received into the club this year, namely: Floyd Auld, Lawrence Baxter, Glenn Bennett, Leslie Boyll, James Bruner, James Chaney, Wilburn Cunningham, Daniel Fenimore, Raymond Flint, Calvin Graham, Howard Harman, Paul Harpold, Edward Hodge, Elmer Huppert, Robert Klug, Roy LaFollette, Robert Leusing, James McCallum, Bence McIntyre, Edwin Moore, Albert Neckar, Herman Parsons, Hartzell Payne, James Payne, Earl Pearson, Lewis Pelkey, Arthur Petty, Edward Puckett, Elza Ring, Joseph Roman, Raymond Sidenbender, James Sullivan, William Sullivan, Charles Underhill, Herschel Webb, Robert Webb and Kerzie Wright.

The event was in the Mayflower Room of the Terre Haute House and was attended by representatives of the 13 former classes of the club and their wives, by other employees, by officials of the organization, by friends and by representatives of the press and radio.

Each man was called to receive the watch presented him for the company by Homer Kieweg.

James V. O'Leary of New York, general manager of biochemical sales, made the address of the evening, stressing the co-operation within the company which has been one of its major assets since its founding.

"We have a good company and a good reputation," he said. "This has been no accident but has resulted from supplying materials of good quality over the past years in an efficient and honorable manner."

"Our products," he continued, "are the living tangible symbols of our employees in production and research." He do not believe that the sales department is the whole company but we do believe that the whole company is the sales department. With a continuing spirit of co-operation and determination within the company we can solve our problems with a feeling of optimism about the future."

A speaker with a sense of humor, kept his audience smiling throughout his talk.

Maynard Wheeler and T. S. Carswell, formerly associated with the local plant, both spoke, with Mr. Carswell reading a letter of regret from the president, J. Albert Woods.

Invocation for the dinner was given by the Rev. Thomas Mabley, rector of St. Stephen's Episcopal Church, who was introduced by George Hines, master of ceremonies.

Also at the speakers table was Thomas Walton, manager of the Peoria plant; Mrs. Mabley, Mrs. Hines, Mrs. Wheeler, Mrs. Carswell, Mrs. Kieweg, Mrs. Walton, Clyde and Mrs. Ellis.

## FISHING DERBY

by John "Hardroll" Jackson

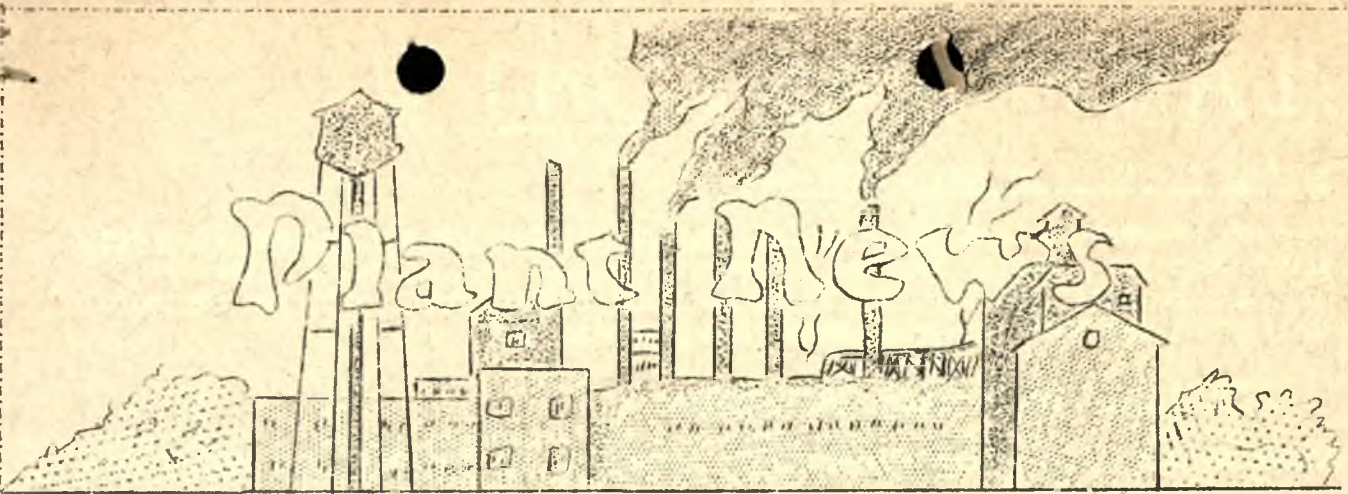

Happened to go by the gate house just as Bob Fenton was having a nice string of bluegills weighed. His string weighed 10 lbs. and 13 ozs. The largest, weighing 10 ozs. and measuring 8½ inches long, was entered in the contest.

You bass fisherman can spend time between now and June 16th doing for the "little lady" around the house so you will be free during bass season.

Someone reported that Bob Brannan landed a string of crappie that would have met with derby requirements but didn't read the "Spirit" until they were in the skillet.

Henry Bush registered in with a string of 25 crappie that went 11 lbs. and 6 ozs. Henry says they were caught near---??? Went fishing with Jim "Hep Bait" Howald and caught 3 keepers, 6 logs and just missed a muskrat. All caught on the famous "Hep Bait". We will be tailing Fenton, Bush and Brannan so we may have some information for sale later on in the week.

SAWDUST & SHAVINGS BY "J. P." Morgan - CARPENTER SHOP

Amos Haddix is boasting of his new home on Jefferson Avenue. It's nice to see chaffeur "Duke" Taylor sporting a new cap. "Barb" Sivertson's motto for her new '55 Pontiac is check the oil daily.

Jim Sullivan complains that when he goes ~~fishing~~ the kids have all the luck.

-----

If you can't lose your enemies, try treating your friends a little better.

-----

OIL & GREASE BY Ray Fulton - MACHINE SHOP

Ray Fulton just returned from a successful vacation. He finally taught his wife how to plow.

We are wondering if Louie Pelkey has learned which door is the exit to the Time Office? "Hank" Biewend is still on the sick list, get well soon "this ole shop ain't the same".

-----

Then there was the bachelor who got thrown out of his hotel room when the manager heard him drop his shoes on the floor twice.

-----

AMBLING WITH AGNEW - INSTRUMENT SHOP

"Blackie" Umphrey will be missed since his transfer, but it's a cinch he'll be welcome at the East Plant.

The story is told around the shop that a couple of the men take their children out for a day of fishing. Is it true that all the men do is watch the kids pull them in?

-----

I walked into a barber shop, the sign was very queer, "During alterations, we'll shave you in the rear".

-----

FLASHES BY "Reddy Kilowatt" Moseman - ELECTRIC SHOP

Ernie Danner spent a week vacationing, result - one cut finger on a lawn mower. Howard Rube was injured last week, glad it was not too serious.

It is rumored that "Slick Top" Higgins offered to purchase George Davis a steak last week. No wonder G.D. is minus his choppers.

-----

Memoirs -- His ship came in but sad to state, He's now too old to navigate.

A pedestrian is a fellow whose wife beats him to the garage.

## PIPE AS FITTED BY Ed Shea - PIPE SHOP

We understand that "Bird Lover" Corthum can furnish any information needed for successful Parakeet raising. What happened to C. Caton's 24" pipe wrench? The gang wonders what the "Art Petty name and address deal is"? Dan Fenimore's face is almost back to normal after the presentation.

## WATCHMEN'S WRINKLES BY "Eagle Eye" Plimmer

(Note to Ed) T.W.P. expresses thanks in behalf of the watchmen for saving this space.

Harry Eastham has retired and capable replacement, "Ab" Ritchey has taken over. Elmer Huppert (new Pontiac and all) took over for Jess Shay. At the South Plant, Sol DeHart and Lloyd Pigg were put out to pasture and "Tony" Meeks and Ray Kennedy are now making the rounds of the rackhouses.

Harold "Happy" Myers, Charley Frakes and Lyman Cooper have taken over the Main Gate Brickhouse to relieve Charley Bonar, Vern Watson and Tom "Cigar" Gregory for duties in other parts of the plant.

Bob Scobell and Guy Smith were heard to remark, "All the big fish must be getting away since we have weighing scales and a ledger to register all big catches".

Daughter, "Dad, what's a trader in politics?"

Jake Davern, "A man who leaves our party and goes over to the other".

Daughter, "What about a man who leaves his party and comes to yours?"

## CONTROL LAB - Mrs. "Bacon" Sidenbender

Mart Conklin will carry the ball while Byron Watson does the spring cleaning at home. Special instruction in the art of planting pecan trees can be obtained from Tom Kruzan. Mary Jo, daughter of Marv Stewarts is recovering in grand style from a recent illness. Saw Carl Freeze at the Dinner Party, a tie on too!!

## RIBOFLAVIN

Phil Vaughn spent his two week's vacation tearing down a house and moving the materials. Oh! it's so nice to get back on the job. Floyd "Chester" Sanders is now the proud owner of a restaurant and service station 3 miles east of Brazil.

"Grandpa" Roman sez, "When traveling north stop at the Roman Bros. on Hiway 41 at 25th Street. Myron Rukes is now sporting a 1953 Buick hardtop. Watch the heavy foot, Myron.

Charles Agan and Herschel Hoopengartner, after wrestling a blend several times over says, "If this is a joke - t'ain't funny". Can't find anything on Orphy Keegan or Jack Montgomery but will keep trying.

Fishing and mushroom hunting is the main topic of discussion but we think Jim Clift is too fat to search out the mushrooms. Bob Hann will soon be vacationing in northern Wisconsin. We'd sure like to see the fermentation end of Ribo come home. We know darn well we can do as well as is being done now.

When Columbus visited South America he saw the native Indians playing with a heavy black ball which bounced around. Three hundred years later, Europeans first began to use rubber to rub out pencil marks - hence the name rubber.

### ORDER DEPARTMENT BY Minnie Hafford

Our best bowling fan, Frances Zimmerman, spent last week-end in Michigan City, where her better-half was entered in a bowling tourney. Howard Suttle returned from a Florida vacation. His tan is the envy of the office but - fishing - Ow! all the big ones got away.

That isn't a new boy in the office. It's Emmett Loveless with a new crew cut and hiding behind a pair of horn rim glasses.

### ACCOUNTING DEPARTMENT BY Marjorie Sisson

Betty Lark and husband spent a week-end fishing at Kentucky Lake. Louie Godschalk and Adrian Ray returned from an uneventful vacation. Betty Kennedy, Betty Brand, Jan Garrigus, Stella Wright, Juanita Cummings and Marge Sisson enjoyed a spaghetti supper at Carosi's. No report on the occasion!!!

Saw Bob "Time Office" Smith fingering a spinning outfit in a local store. You don't have to see too good to fish so he'll probably make a good fisherman.

### DERIVATIVES

Warren "Pudgy" Mayes is trying to regain his girlish figure and is doing pretty well - lost ten pounds in 2 weeks. It must be catching - Si Rayhel has lost a few pounds on his diet. We understand that "Pudgy" and "Si" have petitioned to have the ice cream machine moved.

Jack "Weatherbird" Evans is keeping Jim Clift in cigarette money with his weather predictions. Elmer Johnson says if he can just understand the language used in Derivatives he will make out O.K.

Ernie Laufman says he hopes someone will provide a new coat for the methyl-amine operators next winter as Chuck Hale has about finished the present one off. Don Elliott, "Smoky Joe" Roman and Wig Armstrong have been seen eating a lot of fish lately. No response when asked where they were caught. If anyone catches a seven to eight pound bass on a stringer, it belongs to Harry Brown. He didn't secure his stringer. Well!! Fisherman there is a new wrinkle in fish stories!!

### RESEARCH BY Betty Hughes

Bill Chocas was transferred to the Sterlington Plant May 2. Ralph Whitehouse left CSC to accept a civil service job. Glen Brewer, Phil Hidy, Art Campbell, Grant Lafferty, Roger Harned, Fritz Danga, Charles Hinz, George Craig and Fred Arzberger attended recent meetings in their respective fields.

Bob Walters is now in charge of Chemical Pilot Plant, replacing Ed Chen, who will return to China soon. Art Clough, active Boy Scouter, was recently mugged in the Tribune brown section. The demonstration about "Fire, Its Causes, and How to Control It", proved very educational.

Blanche Jones recently received a bookkeeping certificate for successful completion of that course at Terre Haute Commercial College.

Notice to W. L. Keko & E. Loveless -- Betty Hughes, Norma Waltzer and Sheila Morton aren't feuding. Betty was only in a hurry to get back to work, while Norma was dreaming of a new Dodge and Sheila - well, these English are just dreamers. Edith Albright returned to the Library after quite an absence, glad to have you back. Mary Frances, daughter of the Bill Phillips, celebrated her fourth birthday May 8th.

George Calvin is now working with the Research Engineers.

Fashion Note: Dr. Riddick wearing a towel to keep water and dirt off his pants when working at a lab bench -- note, belt line 38"-- tummy line 44".

Walt (Flat Top) Gerard with his new burr haircut is trying to talk Burkebyle into a burr haircut. Burkie's solution to 18" of grass that needs to be cut: Hide two quarts in the grass and stop the highway mower and inform him of the lost quarts. Ed (king's ranch of Pimento) Moore has become pappy two times over the past fortnight and is still expecting. Research Storeroom offer's bargain of the week: Crushed Mint was offered free for the asking (BEMM-patent pending on the Mint).

## PLANT NEWS - CONTINUED

### SOUTH PLANT BY Mertie Montgomery

Howard Denges was so attracted to Max Moore's burr haircut that he decided it was for him. Upon going to the barber and requesting a burr haircut the conversation was as follows: "Why man, you don't want a burr haircut -- you don't have enough hair for a burr haircut". "Well," replied Ding with a note of despair, "I didn't know that!"

Monk Webster can't get over how much he has been missing around the plant for the past several years, but since he's got his new glasses he doesn't miss a thing!

Bence McIntyre & Roy Hopewell spent a week in Arkansas at Bull Shoals Lake trying their luck at fishing. They did so bad that they didn't even come up with a good "fish story". Mac McCullough took a week's vacation to do some farming (he said) but he picked a week when the weatherman predicted rain. Sure enough it rained and turned cooler on Monday and old Mac crawled in behind the stove for a long, Spring week of sleeping, but the sun came out next day and Mac had to crawl out and get to work. Too wet for farming, I guess, for he built himself a new porch. (Don't let him know we missed him while he was gone, though). Bill Leach is enjoying a week's vacation this week. Huey Johnson has been pinch hitting at the North Plant in the Process Department.

Both of my bosses, Bill Sullivan and Bence McIntyre, have a new watch, now. One to time me when I come in and one to time me when I go out.

### ENGINEERING - Al Miller

The annual "try to out-guess the weatherman" time has arrived: whether to turn on the radiators or order more fans.

Twenty Year Dinner Party notes -- Congratulations to our southern friend, Mike Harman (and, of course, to all the rest of the Class of '55) from Kinser, Brown, Miller, Hylton and Markle (and the rest of the gang) on joining the Twenty Year Club.

Madlyn Furrer and Jeanette O'Rourke were present in all their finery, but wouldn't join the drafting hoi-polloi. Alex & Joan, Don & Beverly, Dick & Mary Markle also enjoyed the evening.

The riotous laughing a few weeks ago among the femmes should make headlines. Who, but Jan Garrigus, could make a perfect strike by turning her back from the pins and merely drop the ball???

Sweepstakes: Team standings - Research - 1st., Spares - 2nd., Office - 3rd., and Doodlebugs - 4th. Beulah Ward won the high game award by rolling a 200 game. Dorothy Medley bowled a series total of 544 making her the winner of the high over average award having 142 pins over her average.

# FISHING DERBY

(John "Nosey"  
Jackson)

Haven't had too much fishing news of late, seems as though everyone is waiting for bass season to open.

For instructions on how to catch your limit at Kentucky Lake, see Martha Gray. She will serve as guide. Yeh! Man!

Paul Love explains how to nab a "Sucker". Make a noose out of wire and attach it to a pole. Next you climb onto a tree limb that hangs over the "crick". When a sucker comes along you lasso him. Paul says it's fun. For more details see P.L. For you uneducated people, he says "Sucker" is the name of a fish.

Note: It has been 3 weeks of steady fishing with his new spinning outfit and Bob (Time Office) Smith hasn't caught a fish yet. Maybe you do have to have good eyesight to fish.

## IS THIS TRUE??????

Did "King Kong" Keko, the bowler??, service all the coke, 7 Up, milk and candy machines in the Pen Plant? Was he helping out or helping himself? \$6.85 is pretty stiff for a 3 game series, maybe not if you're 107 under your average. Just wonder how he gets this one by the budget boss at home.

It is reported that G. Watson "Free Spender" McMillan returned from a trip with holes in the knees of his britches. Tis said he ran afoul of the highway gendarmes. All his piteous pleading on bended knee was of no avail. The fine was only one buck--but court costs brought this total to \$14.25. What a blow to "Free Spender" and with ruined pants yet.

Heard that Dan Fenimore was ousted from a fishing hole by a local J.P.

After June 15th we hope we see some of the bass we have been hearing about before bass season opened.

"Oh, come now.... Swallowing a fly isn't that serious."

Say! Where are those pound and pound-and-one-half blue gills and crappies we have been hearing about. So far we only have one entry in the Derby for bluegills and none for crappie. Are you bluegill fishermen going to let Bob Fenton win the prize with a 10-ounce bluegill??

## DERBY RULES--

Four prizes will be awarded, one for each fish entered that weighs the most in each of the following classes:

1. Large mouth or black bass
2. Small mouth bass
3. Bluegill or red eared sunfish
4. Crappie

One person may make as many entries as he wishes.

Henry Bush held a big fish fry, furnishing the fish he caught on his recent trip to Kentucky Lake. There was some question about the catfish on display at the fish fry.

Oh, Yes: Bob "Hungry" Smith is still trying for that first fish.

### **HOMER (HODE) LOWERY RETIRES JULY 1, 1955**

Terre Haute's oldest employee in length of service retires. Hode started with C.S.C. February 23, 1920 in the Maintenance Department. In 1935 the new Feed Plant was built, Hode was one of the first operators. In recent years it has been Hode's responsibility to see that the Feed Plant equipment was kept in operating condition and he has done an excellent job. We hope Hode visits us at the plant often as we all miss him.

The boat Hode is sitting in was presented by his fellow workers. (presentation was made at the picnic by Bob Jarvis, General Picnic Chairman)

# REPORTIN' ON PICNIC

Approximately 1500 persons gathered on the Lockport Hilltop Saturday, June 18 to celebrate the twentieth annual C.S.C. picnic.

Picnickers began rolling onto the grounds about 12:30 P.M. and continued through the afternoon.

Many lovely and useful gifts were won by the ladies who participated in various games.

The youngsters were entertained with foot races, pony rides, pony cart and hand cars.

A golf range and horseshoe matches were arranged for the men.

A softball game between Control Lab and Penicillin was another feature of the afternoon. The Control Lab nosed out Pen by a 4 to 2 score. Circus performer "Web" Clough had one fly ball bounce off his "noggin" and sure enough, Charley Kendall came in behind him to catch it for the put-out.

The picnic supper was delicious-m-m-m-baked ham and trimmings--plenty of good food served well. The company chuck wagon delivered food to all the fellows who had to work on picnic day.

The happy winners of the tricycles were Patty White, daughter of Dewey White, and Don Pensack, son of Joe Pensack. Bicycle winners were Judy Johnson, daughter of Johnny Johnson, and Bill Sullivan, son of Earl Sullivan.

The co-chairmen of the picnic, Bob Jarvis and "Bruck" Brucker, want to express their appreciation to all who worked so faithfully to make this picnic the success that it was.

(Ed. Note) It is only fitting and proper to acknowledge a job well done to Bob and Bruck.

Meischer and Hinz have developed a steady accurate consistant game despite their unorthodox stroking styles. Their style is an asset because on occasion it bewilders their opponents.

# FISHING DERBY

By John Jackson

Jim Clift, it is reported, fished all day recently without results. Finally switching to the sure fire "Hep" he made his catch, a 2-inch sunfish. At that he could give Bob "No Fish" Smith lessons.

Went fishing with "Smokey Joe" on his favorite stretch of water, Raccoon Creek. This type of fishing is highly recommended as we had lots of fun. In addition to catching a few smallmouth bass a person is treated to an occasional bath. If anyone goes fishing with Smokey in the future, have him fix the latch on his minnow bucket. Joe claims that I located a few new snags for him by hanging my plug on them.

Red Wolfe reports that it rained every day he was on his fishing trip up north. He reports catches of northerns and wall-eyes. Earl Barnes says he didn't do so hot on his trip north.

"Mike Hunt promised an entry in the "Fishing Derby" but so far we haven't seen it, maybe he is waiting for the big one. George Slavens has a whopper spotted and is waiting for a good dark night. Johnny Riggs claims he is going to get a device to release anything under five pounds as he is getting tired of pulling the little ones in.

Let's enter those fish and get the Derby rolling. Sorta expected a big bass out of Bob Clements. BRING THAT FISH IN.

## DEDICATION TO THE OFFICE GOLFING TEAM

By

EHmenremtatn LCorvculseess

Thursday was a sad, sad day  
As the golfing team had little to say,  
Occasional comment - excuses it seemed  
For their total loss out on the green.

The crying towel is gathering tears  
While the team is accumulating future fears,  
When again they meet "The Hackers Great"  
Oh, golfing score, what is their fate?

Virg says was luck, was all could be  
King agreed, but couldn't see  
Why Hines wasn't hot as gossip goes  
And Tapy flubbed as everyone knows.

But to top the thing off - we heard Jarvis say  
When I play Hines, I'll rue the day,  
A little practice the eve before  
On Hines I might even double the score.

Well, buck up, boys, there's another day  
When maybe you can have your say,  
Lots more practice, a little more force  
Even shorts might help out on the course.

On the way to Shafer Lake his car threw a rod and "poor ole Jim", soft drinks and all had to wait till a friend who had gone on ahead, turned around and came back. He left the car at Wavelar for repairs. Four days later he picked the car up and when he came out of the dance pavilion that night it wouldn't start. He had enough after one week so he came home. Sometimes the liquid in the tank is a little warm and he claims it burns his finger while waiting for Bush to whittle a plug. Many people formerly believed that European storks became men after they migrated to Egypt and remained men until ready to return to Europe.

By John "Snag" Jackson

Say, we have had some activity in the Fishing Derby in the past few weeks. Henry Bush entered a 1 lb. 7 oz. crappie. Dick Elliott entered a 1 lb. 9 oz. crappie (scaled and cleaned weight) and a 1 lb. 7 oz. crappie. Bill Allen registered a 3 lb. 12 oz. large mouth bass to start the bass section to rolling. Let's keep them coming in. Dale Cottom reports that he caught a 4 lb. bass but couldn't bring it in for registering.

"Smokey" Joe has decided to go back to his boyhood ways of fishing. He used a hickory stick for a rod when on a fishing trip with Earl Barnes; "Smokey" forgot to carry his fishing rod along.

Jim "Hep" Howald reports that bass are hitting now.

Bob Jones reports that he did pretty good at Shafer Lake; Bob's son, Billy, rowed Bob around the lake while he fished. Billy doesn't think rowing is as much fun as Bob told him it would be.

Bob (No Fish) Smith almost broke his record but the line broke and the fish slipped back into the water. "Smokey", Bob and I went up to Raccoon Creek Sunday; no fish because of mddy water but Smith was pretty clean from head to toe when we left. How anyone could fall into such muddy water and be fetched out clean, we still can not understand.

#### WHAT EVERYONE SHOULD KNOW ABOUT HOME SAFETY

1. Keep steps and porch railings in sound condition.
2. Illuminate dark stairways and provide hand rails for all stairways.
3. Do not allow material to be stored on stairs.
4. Sand icy steps and walks promptly in winter.
5. Never run the car in a closed garage.
6. Keep a supply of approved fuses on hand. Do not allow defective extension cords or electrical equipment to be used.
7. Keep sharp kitchen utensils, matches, and poisonous substances out of reach of children.
8. Handles of cooking utensils on top of stove should be turned in where they can't be reached by children or bumped by grown-ups.
9. For reaching high places, use a stepladder.
10. Put anti-slip pads under scatter rugs.
11. Have a rubber mat in your bathtub or provide a handhold.
12. Keep a well supplied first aid kit handy.
13. All members of your family should know how to apply prone pressure resuscitation. (See the American Red Cross or your insurance company.)
14. Strains can be avoided in lifting by bending the knees, crouching down to the object, keeping the back and arms straight, and pushing up with the legs.

#### SAFETY

Our safety record was finally broken with a string of 180 days without a  
lost time accident. The previous record was 176 days without a lost time  
accident. Frequency rate through July 1955 was 3.59 as compared to 1.71 for  
the same period of 1954.

It is the hope of everyone concerned that each individual in the plant  
will THINK and ACT SAFELY, thereby eliminating any suffering or loss of work.

Roy Lucas is now sporting a shiny new Ford. Roy should be commended for his quick thinking when he chanced on to a tractor with a burning gasoline tank that had overturned onto a 13 year old boy and a 9 year old girl. Roy summoned help from a nearby farmer and they pulled the tractor off the children, who fortunately were not injured seriously. A fine job by Roy and his farmer friend.

Paul Jones traded his fishing rod for a paint brush to paint his house. Paul complained but Mildred cracked the whip.

A vacation is a succession of 2's. It consists of 2 weeks, which are 2 short. Afterwards you are 2 tired 2 return 2 work and 2 broke not 2.

### DERIVATIVES

In making the rounds for bits of news Elmer Johnson reported that he had some dirt but as it was concerning him he was going to keep it a secret.

We had to loan Leo Shaffer and Burl Clements to Process so they could start operations. Johnny Voll reported in as a replacement for Leo. Sorry to lose Leo and Burl but glad we received a good replacement.

Charlie Steinsberger reported that he ended up with "saddle sores" from too much driving on his vacation. Charlie visited most of the Northwestern States.

"Gil" Walker took his family on a camping trip, but after one night they ended up in cabins. He reported that the "skeeters" had legs so long that they looked like drilling rigs when they dived into you.

### SOUTH PLANT

Hi!! As most of you know, I've been on the "shut-in" list for about seven weeks with Thrombo-Phlebitis (or - plainly speaking - a blood clot in my leg) and the Doctor has just released me to work half days for awhile, but I'm hoping that he will "turn me loose" when I make my next visit to his office----- Nevertheless, it's good to be back and I want to take this opportunity to thank the many CSC'ers who remembered me with cards, letters, phone calls and visits. All of this meant so very much to me and I sincerely appreciated your interest, thoughtfulness and friendship shown in each gesture. I would like to write a thank-you note to each one personally, but, over the long period of time that I was shut in, there were so many wonderful people who remembered me in numerous ways, that I'm afraid I'd miss someone if I tried. So, in view of this, I decided to take this means of thanking all of you - and believe me this is just as sincere as any personal note I could write. Thanks again to all of you!

## SOUTH PLANT NEWS - CONTINUED

Max Moore has returned from his vacation of which he says was very enjoyable. Frank Latta also returned from vacation this week and states that he took in a ball game in St. Louis.

We understand that November 12 will be Sadie Hawkins Day for Ralph Servie. Full detail of the plans for the occasion has not yet been announced but it has been decided that Max Moore and Howard Denges are to be the ushers and Vern Sullivan the best man. The catch is to be driven into the race by his foster father, Bence McIntyre. Huey Johnson will let down the gap for the runners at the sound of the gun, shot by Jim Clements. A trio composed of Doris Anderson, Laura Belle Stilwell and Mertie Montgomery will sing "The Bird in the Gilded Cage", at the close of the ceremony. Our heartfelt sympathy is offered to the doomed contestant.

New life was brought to Plant No. 2 when the following girls were transferred here to work: Betty Garry, Essie Mail, Martha Price, Mary Reagin, Erma Tryon and Violet Uffen. It was nice to see them around.

Harry Roth is on a well earned vacation this week.

Ben Rauch reported a wonderful three weeks vacation.

Jim Clements and wife motored to Brown County Sunday.

Do you need a loan?

With Credit Committee approval you can borrow up to \$400.00 on your signature or up to \$900.00 with two comakers. Weekly or monthly terms can be arranged to suit your needs. Talk over your financial needs with your Credit Committee ( Jack Agnew, Louie Pelky, Vic Campbell). You will find them confidential and courteous.

The following table is an example showing total interest cost of loans for various periods, figured at 1% of unpaid balance per month, when paid as scheduled.

<u>Amount of Loan</u>	<u>Monthly Payment</u>	<u>Total Interest</u>
\$100.00	\$15.00	\$ 3.85
200.00	20.00	11.00
300.00	20.00	22.40
400.00	25.00	34.00

Weekly payments cut interest down as does shorter repayment time.

New members are invited. Make application with Bob Smith in Time Office.

It seems that the past month has been vacation season for the fish here at Terre Haute as none of the CSC anglers have registered prize fish in the contest. The coming cool weather should bring a little more activity in this department.

Harry (the Poacher) Brown reports that his luck has changed and he expects to land that big one any day now. (Caught a 3-1/2 pounder the other night.)

Johnny Johnson decided to settle down in the Derivatives Department after swinging vacations this year. "Si" Rayhel reports that he anticipates that he will shed a few pounds on his new job as a watchman.

Many of us have gotten a chuckle out of the odors from the Derivatives Department. A few days ago it was John Jackson's turn. Stopping by a local grocery store on his way home from work he was selecting a frying chicken. He noticed the fellow next him holding a chicken next to his nose with a distasteful look on his face. The store manager sighed with relief when John told the customer that the odor was coming from him and not the chicken.

BE PEAK AND NOR'WAY GOODWILL AMBASSADOR

Here's how to get started. On your way home from work buy some gas at your regular neighborhood service station. Tell the dealer you intend to buy Peak or Nor'way Anti-freeze since you work for the company that makes it, Commercial Solvents Corporation. Ask him to stock a good supply of these brands. Let him know that you will tell your friends and neighbors where they may buy Peak and Nor'way.

Keep score and see if you can convince at least five car owners to switch to CSC brands or to drain out their old and tired anti-freeze and get a fresh supply.

1. Tell your friends that you are a Peak and Nor'way goodwill ambassador and that Peak and Nor'way are made by Commercial Solvents Corporation, a home town industry.
2. Tell them where they can buy Peak or Nor'way.
3. Say that you use Peak and Nor'way and recommend these brands since . . . Peak is a new, improved, and different "All Winter" anti-freeze and provides better protection against rust and corrosion than any other national brand.

Nor'way is made from synthetic menthanol - the strongest, most efficient anti-freeze known. Nor'way insures maximum freeze protection at minimum cost.

4. If some friends intend to reuse last winters anti-freeze tell them the National Bureau of Standards, the American Automobile Association, leading automotire experts and manufacturers, and your own CSC chemist recommend that any anti-freeze, regardless of type or brand, be drained and discarded after one seasons use.

You are recommending the best anti-freeze that money can buy so lets help ourselves and our company and have some fun too by promoting Peak and Nor'way Anti-freeze.

## OLD TIMERS DAY

### "OLD TIMERS" HONORED AT LUNCHEON

The Terre Haute Plant was honored with the presence of many of the retired group at a plant visitation Tuesday, November 1. Pleasant memories of the past were recalled as they visited their old haunts.

Following the plant visit they adjourned to the Pine Room of the Deming Hotel and enjoyed a delicious roast turkey luncheon with John Shofstall giving the invocation.

George Hines, Plant Superintendent, welcomed the "Old Timers" remarking what a hearty looking group was present. After reading a letter from Otto Foote, who regretfully was unable to attend, and recognizing the new members to the retired ranks, George introduced Mr. Tom Walton, Production Manager of the Terre Haute and Peoria Plants, who addressed the group as "youngsters" because of the many activities they have become interested in since their retirement. Also, he assured them any rumors concerning the closing of the Terre Haute Plant were definitely false.

Mr. M. C. Wheeler (affectionately known by the "Old Timers" as "Maynie") was present to renew old acquaintances.

Out of towners included Miss Anna E. Gepner, Joseph Shofstall and Ray Smith, Brazil, Indiana; Harley Cottom, Linton, Indiana; Ben Strauss, St. Louis, Missouri and J. W. Fonnannon, Valparaiso, Indiana.

Terre Hauteans present were John Boroughs, Les Boyll, George Bruner, Lowe Bush, Sol DeHart, Herb Dishon, Harry Eastham, J. C. Fitzsimmons, Ed Holden, Ralph Hollingsworth, Harry Huntwork, Red Jeffers, Herm Kriescher, George Krizan, Slim Leon, Mac McNaught, Tom McNutt, Roy Moore, Ed Nash, Herb Otte, Lloyd Pigg, Buck Pine, Cale Price, Elza Ring, Charley Schilling, John Shofstall, Bill Streeter, Tom Walters, Walt Whitaker, Earl Drake and Roy Mitchell.

Members absent, for one good reason or another, were George Appell, Charles Bogin, Ed Brown, Julian Dale, Bill Doerr, Otto Foote, Elza Harris, B. J. Hixon, Herb Hunt, Pearl Hunt, Charley Lambert, Hode Lowery, Luther Mapes, Guy Simmons, Herb Smith and C. E. Watts.

Following group pictures and a visiting session, the meeting adjourned until next year.

Let us make every day as kind and good as we can manage, and appreciate it, separately from Past and Future, neither of which we can have. Today, only, is ours.

### TWO C.S.C.ers RETIRE

Earl Drake, after 30 years service, and Roy Mitchell, with 21 years of service, retired October 31st. In a double ceremony at a gathering of fellow workers in the Carpenter Shop, Earl received a gift certificate for a shot gun and Roy was the recipient of a portable TV set.

Thursday, November 2nd, saw them enjoy a delicious country style fried chicken supper as forty-seven fellow employees honored them for their friendship and service to C.S.C. Both men acknowledged the dinner and its meaning to them with

My wife and I thank you for the TV. It is not just a TV, but a token of friendship which we shall always remember and hold dear to our hearts."

## C.S.C. BLOOD BANK IN ACTION AGAIN

Herb Smith, a member of C.S.C. Old Timers, underwent surgery at St. Anthony Hospital; the call for blood went out. Art Clements, Harold Henschen, Ed Puckett and Bob Webb were on their way immediately. Herb is doing nicely on last report.

Bob Harn was confined to Union Hospital, awaiting surgery, when his doctor requested two donors. Dean Newlin and Ray Watts answered the call. Bob's condition is reported as improving.

### CONTROL LAB

Lost, strayed or stolen--mostly lost: 1,000 Pharmaceutical Division Laboratory Analysis Forms; two packages from Powell-Matthews, missing since July. Anyone knowing of their whereabouts, contact Control Lab.

Paul and Jean Love and son, Mike, are vacationing in Pennsylvania. They are visiting Jean's parents who are seeing their grandson for their first time.

Recent vacationers have been Louis Yansky, Helen Brassie and the Sidenbenders. All spent lazy times at home.

Earl King vacationed during the time two of his children had tonsilectomies.

"Runt" Turner is back in the lab after a sojourn at East plant.

Lucky for Bob Lenwell that he stopped at Mother's Restaurant on his way to take pictures of "Old Timer's Dinner" or he would have been searching the basement of the Terre Haute House for them.

The Sidenbenders have good neighbors; they called Wednesday morning, after seeing no lights on, to tell them the electricity had been off for two and a half hours. It was then 25 till 7.

Vern Watson practically left work early to be able to fill his gas tank at the gas war rate; all in vain, 15 minutes too late.

The daughters of both Gilbert Royer and Warren Morris have been in the hospital. Both are much better and are now at home.

### DERIVATIVES

While duck hunting last Monday, Jim Roman and Willard Smith parked their boat on a sand bar and walked quite a way down the river, which was tough going. Hearing an outboard motor coming up the river, Jim and Smittie hurried over to the river bank to thumb a ride back up the river. Luck was with them; good ole Johnie Wright picked them up and hauled them in.

Fred Scarbrough's vacation starts November 14th and it will be surprising if he doesn't try trapping again this year.

Jim Roman and Hersh Webb will be vacationing the week of the 21st in the cabin. Sure pity the poor ducks.

Bill Allen is turning out to be a pretty good mechanic. He tore his Chevie down and put it back together again and it sounds pretty good.

The entire department is sorry to see Roy Mitchell leave and wishes him well with his retirement plans.

#### A FEW OFFICE SAFETY HINTS

##### FOR LADIES ONLY

A desk drawer jutting out in space  
Can send you sprawling on your face.  
You have no periscopic eye  
Don't rush headlong with mail stacked high.

A mass of phone cords - heed this tip -  
May send you on an unplanned "trip".  
Watch out! Your head won't be the same;  
An open cabinet door's to blame.

High heels, albeit trim and neat,  
Can deftly flip you off your feet.  
A loaded file may tilt - beware!  
Anchor the file or pull with care.

An object too heavy - alas, alack -  
May leave you with an injured back  
So..Take heed you gals,  
Treat every Safety Rule as your best pal!

(A word to the Men who read this through;  
Some of these hints apply to You!

### RIBOFLAVIN

Clarence Brucker failed to report for Riboflavin so we thought we'd toss in this little gem by George Robert Roman.

#### HOW'S YOUR MEMORY

Can you remember way back when  
Corn was cheap and plenty of men  
And liquor, well it flowed quite free.  
The English ships were large and strong,  
Their guns were plenty and quite long  
But couldn't sink a rowboat out at sea.

So says his Lordship, I say by Jove  
We need some powder that would jump and rove  
And blow these blawsted subs quite all to 'ell,  
But, blarst it all, we have to go  
To the U.S.A. and don't cha know  
They came, and everything turned out quite well.

Our Acetone was deadly stuff  
And when we turned out quite enough  
We had another problem and some fears  
For with all the Acetone we made  
With deadly aim the subs did fade  
But we had Butyl running out our ears.

Now in our Labs we had a man  
Who faced his work and never ran  
And Charlie Bogin never was a slacker  
Got in his Lab with tubes and flasks  
And worked it out in figures and facts  
And put the butyl in Butyl Lacquer.

(Continued..)

#### HOW'S YOUR MEMORY (Cont'd.)

Not only in Lacquer did we use  
This butyl but began to fuse  
Our Phthalate, Stearate and our Lactate too.  
We sold them well but that "Aint" all,  
We manufactured Methanol  
And many other products that were new.

We purchased Rossville, lock and key  
And that sure turned out to be  
A dandy line and we made it better  
And C.S.C. sure had the name  
Of adding to Old Rossville's fame  
And that show'd C.S.C. as a go-getter.

Then turning to the farmer's needs  
We knew he could use better feeds  
Because his livestock always was "a'cravin".  
Again we turned it to the Lab  
And they whipped it too, by grab,  
By manufacturing our Riboflavin.

Now I could rave the whole day long,  
Could even write this down in song,  
Of Pharmaceuticals we have made; and then  
Thank you Doc. Bogin and the rest  
Of chemists, and we have the best,  
And the guys who did the job were all good men.

## SAFE DRIVING DAY

Bennie Kiburis, State Trooper (and former Terre Haute plant employee) is commended for performing his duty. The following is an excerpt from the Rockville Tribune:

"With the death toll on the highways increasing every day, people should more than ever observe next Thursday, Dec. 1, as "Safe Driving Day". It will be observed all over the United States in an effort to prove that with careful thinking on the part of drivers, the death toll can be reduced. It is shocking to think that in this nation of ours more than 1,000 people have lost their lives on the highways this year. That doesn't include the many thousands who have been injured, some of them permanently. Practically all of these accidents could have been avoided if the drivers had exercised a bit of caution and common sense. Last week, Justice of Peace Omer Smith received a letter from James C. Varner of Highland, Indiana. I believe that its content is better than any editorial that could be written on the subject of "Safe Driving". Here is the letter:

"Dear Sir: On the evening of November 7, I was arrested by Trooper B. Kiburis of the State Police for passing on a curve. He advised me to write to you and inform you of my plea for the offense. In my haste to pass a heavily laden truck, I have no doubt that I probably crossed the yellow safety line and, in so doing, endangered not only my own life, but that of my wife and other innocent people. I must admit at the time of my arrest, I thought it was a rather trivial offense, but after much thought I can see that the resulting consequences from this little carelessness could have been anything but trivial. I therefore plead guilty. (and feel fortunate to be alive to pay the fine.) Please advise me as to the amount of fine and method of payment.

In closing, the manner in which Trooper Kiburis handled the matter was highly commendable. His overt courtesy and understanding are qualities rarely found in most officers. Being a fireman myself, I am closely associated with many law enforcement officers and have yet to see one who can measure up to him. James C. Varner"
